Please consider the addition of a Professional Hydrologist (PH) to those who may prepare information in compliance with Subarticle 2, below. This certification, issued by the American Institute of Hydrology (AIH), ensures a level of expertise and professionalism that is fully adequate for the purpose of preparing Groundwater Sustainability Plans (GSPs). For additional information, please see <http://aihydrology.org/index.html>.

SUBARTICLE 2. Basin Setting

§ 354.12. Introduction to Basin Setting

This Subarticle describes the information about the physical setting and characteristics of the basin and current conditions of the basin that shall be included with each Plan. Information provided pursuant to this Subarticle shall be prepared by or under the direction of a professional geologist or professional engineer.
