

# NOTICE TO STATE WATER PROJECT CONTRACTORS

NUMBER: 06-07

DATE: NOV 29 2006

SUBJECT: 2007 State Water Project  
Initial Allocation

FROM:

*Raphael S. Jones*  
DEPUTY DIRECTOR, DEPARTMENT OF WATER RESOURCES

The Department of Water Resources (DWR) is initially approving 2,465,529 acre-feet of Table A water for long-term State Water Project (SWP) contractors in 2007. SWP supplies are projected to meet 60 percent of SWP contractors' requests for Table A water. Attached is the initial 2007 SWP allocation table.

This allocation is made consistent with the long-term water supply contracts and public policy. DWR also considered a conservative projection of hydrology, SWP operational constraints, and 2007 contractor demands, including carryover water from 2006. The hydrologic conditions this year are similar to last year; the SWP is coming off a wet year with high storage. SWP contractors' Table A for 2007 totals 4.13 million acre-feet, of which 4.07 million acre-feet were requested. DWR will revise the allocation as the hydrologic and water supply conditions develop.

Based on this initial allocation, DWR will prorate the 50 percent delivery schedules submitted by the contractors' earlier this year in developing new schedules, unless revised schedules are submitted. DWR will send an approved monthly water delivery schedule to each long-term contractor in December.

If you have any questions, please contact Robert Cooke, Acting Chief of DWR's State Water Project Analysis Office, at (916) 653-5945.
