Subject: UAG Meeting Follow Up

Good morning Vicki and Peter,

I would first of all like to thank you for your efforts putting together and being a part of yesterday's meeting and for inviting CLCA to be a part of it.

I was going through my meeting notes and a conversation I had with Vicki regarding the codification of the Water Use Prohibitions into the CA Code of Regulations and would like to make sure that as part of the discussions moving forward that we look for a definition of "measurable precipitation" as part of that effort.

I was also thinking about the runoff from lawns when watering statement and I am wondering if it is redundant since it is my understanding that there is already regulation against run off from any type of irrigation.

I also have some concerns/questions about hosing off sidewalks, etc and irrigating ornamental turf on public street medians, but those can wait until I hear back as to how this process moves forward from here.

Please let me know if you have any questions.

Thanks again for all of the work you do on these issues.

Best regards,
Peter
